Why Recycle Computers?

Computers contain toxic metals and compounds that can damage the environment if landfilled. Many of these materials are valuable resources that can be recovered to make new products.

RECYCLE your unwanted computers, and keep our environment healthier.

Acceptable Computer Items:

Desktop Computers	Printers
Laptops/Notebooks	Scanners
Monitors	Cables & Cords
Keyboards & Mice	Modems
External Drives	Battery Backups
Docking Stations	Memory Cards
Circuit Boards	Hard Drives
any internal or external components	

Also Accept:

CDs
Floppy Disks
Cell Phones
Digital Cameras
Game Systems
PDA's and Papers

All materials dropped-off will be recycled through a partnership between MMWA and Goodwill Industries. Through Goodwill's training program, computers are disassembled and sent to a Michigan recycling facility.
